1. This Office action is in response to the Appeal Brief filed 5/4/04 and the telephonic interview of 5/20/04.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the claims: in claim 39, l. 1, after "catalyst" insert --system--.

In claim 99, l. 2, before "as" insert --anion--.

3. Authorization for this examiner's amendment was given in a telephone interview with Catherine Bell, Esq., on 5/20/04.

4. The following is an examiner's statement of reasons for allowance: although placing a catalyst upon a support and limiting the amount of catalyst on said support are conventional modifications, none of the prior art of record suggests that doing either of these acts would result in a catalyst that would afford a polymer of any particular properties, let alone the more cohesive, less tacky and rubbery material produced when the catalyst of Brookhart is placed upon a support.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
